Schools Infrastructure Demand Maps

These Schools Infrastructure Demand Maps display the average annual growth of projected primary, secondary and total school age persons, for all Statistical Area 3s in Queensland, for the time period 2011-31.

Australian Statistical Geography Standard (ASGS) hierarchy

Queensland
- Statistical Area Level 4 (SA4)
- Statistical Area Level 3 (SA3)
- Statistical Area Level 2 (SA2)
- Statistical Area Level 1 (SA1)

Maps for individual SA3s and their accompanying data can be found at: [www.oesr.qld.gov.au/releases/sidmaps](http://www.oesr.qld.gov.au/releases/sidmaps)

Queensland's SA3s
Projected population change
30 June 2011 to 30 June 2031
Primary School Age Persons*

Projected Primary School Age Persons*
Annual Average Growth (2011-2031)
- 2% or more
- 1% to less than 2%
- -1% to less than 1%
- Less than -1%

Notes:
1. These SA3 level data have been aggregated from SA2 level data, which have been concorded from Statistical Local Area-level projections, and represent the Government Statistician’s best estimates of population growth. These data will be updated when fully-modelled SA2 projections are released in late 2013.
2. Care should be taken when interpreting the population growth in school-aged children due to the transition of Year 7 from primary to secondary in 2015.
3. Primary school age persons are those aged between 5 and 12 (inclusive) in 2011, and those aged between 5 and 11 (inclusive) in 2021 or 2031.
4. Projections data for Torres Strait Islands and Northern Peninsula SA2s are not available, and as such data for the Far North SA3 excludes these SA2s.

Queensland's SA3s
Projected population change
30 June 2011 to 30 June 2031
Secondary School Age Persons^*

Projected Secondary School Age Persons**
Annual Average Growth (2011-2031)
- 2% or more
- 1% to less than 2%
- -1% to less than 1%
- Less than -1%

Notes:
1. These SA3 level data have been aggregated from SA2 level data, which have been concorded from Statistical Area-level projections, and represent the Government Statistician's best estimates of population growth. These data will be updated when fully-modelled SA2 projections are released in late 2013.
2. Care should be taken when interpreting the population growth in school-aged children due to the transition of Year 7 from primary to secondary in 2015.
3. Secondary school-age persons are those aged between 13 and 17 (inclusive) in 2011, and those aged between 12 and 17 (inclusive) in 2021 or 2031.
4. Projections data for Torres Strait Islands and Northern Peninsula SA2s are not available, and as such data for the Far North SA3 exclude these SA2s.

*Adjusted for below 100% secondary school participation rates.
**Includes transition of Year 7 from primary to secondary school (see Notes 2 and 3).
