Comments

Random fluctuation may occur where population and offence numbers are small.

Rates of offences across all three categories were significantly lower than for the state as a whole. These significantly lower rates have been maintained from 1998-1999. No sub-category recorded a rate significantly higher than Queensland.

These data have been sourced from Queensland Police. All analyses have been undertaken by OESR and any queries should be directed to The Crime Statistics Unit (OESR) on (07) 3224 4126
