

Exports of Queensland goods overseas, November 2015

Source: ABS 5368.0, released 7 January 2016

Note: From June 2013, the Australian Bureau of Statistics changed the treatment of certain commodities to maintain confidentiality. This has resulted in data on some commodities (such as sugar and aluminium ores) not being included in state level exports. As a consequence trade figures by commodity and total exports at state, and in some cases port, level are understated. Caution should therefore be exercised when interpreting changes as the movements may not be representative of underlying trade performance.

Key data

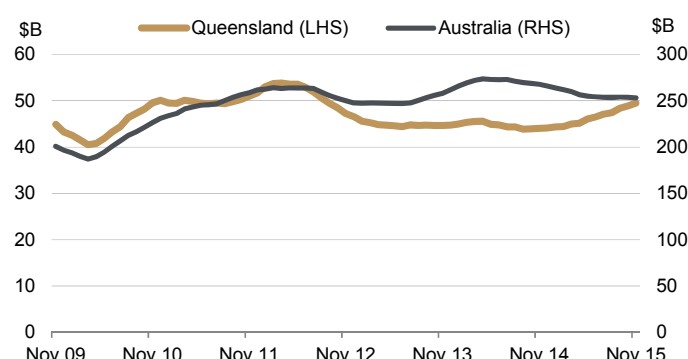

Change in value over year ending:

Queensland..... \$49.5B ↑ \$5.5B (12.5%)
Australia \$253.2B ↓ \$14.7B (-5.5%)

Main findings

The commentary below is based on nominal values (in Australian dollars), therefore movements are affected by price and quantity changes. Data are based on exports of goods overseas by state of origin. Data excludes service and interstate exports. The latest six months data are preliminary and subject to revision.

- The value of Queensland exports increased \$5.5 billion to be \$49.5 billion over the year to November 2015. Australia's value decreased by \$14.7 billion over this period.
- The largest increase in the value of non-confidentialised Queensland commodity exports for the year ending November 2015 was recorded in *Meat* (increasing \$1.1 billion) (Table 1).
- The largest decrease in the value of non-confidentialised Queensland commodity exports for the year ending November 2015 was recorded in *Cotton* (decreasing \$652.4 million).
- The *Coal* commodity group recorded the largest non-confidentialised export value from Queensland for the year to November 2015 with \$18.6 billion.
- China was Queensland's largest export destination over the year to November 2015 with \$11.9 billion (Table 2). This was an increase of \$1.3 billion from the year to November 2014. Japan was Queensland's second largest export destination with \$8.6 billion (an increase of \$184.9 million over the period).
