- (a) Includes high rank metallurgical coal (hard-coking) and bituminous coal (thermal) and excludes semi-soft coking metallurgical coal and PCI coal.
(b) From June 2013, the ABS changed the treatment of certain commodities to maintain confidentiality. This resulted in some commodities (such as sugar) not being included in state level exports. As a consequence total exports at a state level are understated.
(c) Includes export commodities such as LNG, alumina and semi-soft coking metallurgical coal, PCI coal and cotton.
