¹ Development time frames for industrial land supply are indicative only.
² Strategic land refers to sites that are planned for industrial use or development.
³ Strategic land refers to areas such as airports, ports and defence sites that may contain land for industrial use.
⁴ Development areas and enterprise opportunity areas identify areas for industrial use and form part of the South East Queensland Regional Plan 2006-2031.

Kilometres

Notices
This map shows the industrial land supply by indicative development time frames. This map does not commit the relevant council or statutory authority to permit development within the time frames specified.

This map is an output of the Industrial Land Monitoring Program for SEQ and is to be interpreted in conjunction with the Program. Information about the Program’s methodology can be found in the industrial development activity profile and explanatory notes.
