<b>Total</b>	<b>4.9</b>	<b>3.5</b>

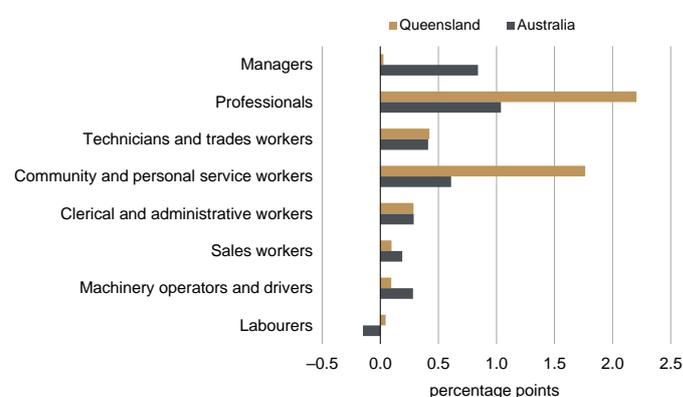

(a) Year to September quarter 2022 on year to September quarter 2021.

## Main findings

Note: Data in this brief are based on 4-quarter moving averages.

- In the August reference month of September quarter 2022, there were 2,741,390 employed persons in Queensland, which accounted for 20.3% of Australia's total employment.
- Over the year to September quarter 2022, the largest percentage increase in employment in Queensland occurred in the occupation group *Community and personal service workers* (up 16.1%), followed by *Professionals* (up 10.1%). In Australia, the largest percentage increase occurred in the occupation group *Managers* (up 6.5%).
- Over the year to September quarter 2022, the occupation group *Professionals* recorded the largest contribution to employment changes in Queensland (2.2 percentage points), followed by *Community and personal service workers* (1.8 percentage points).
- During September quarter 2022, the occupation group *Professionals* had the largest percentage of total employment in Queensland (23.0%), followed by *Technicians and trades workers* (14.4%). The largest percentage in total employment in Australia was also in *Professionals* (26.0%) (Figure 2).

### Notes

The labour force statistics presented in this brief are based on a sample and are subject to sampling error. As such these estimates will exhibit, in some cases, large volatility in quarterly changes. Extreme caution should be used when making inferences from these estimates.

Occupation was coded to the ABS 2013 v1.2 Australian and New Zealand Standard Classification of Occupations (ANZSCO).
