Total	3.9	2.5

(a) Year to December quarter 2024 on year to December quarter 2023.

Main findings

Note: Data in this brief are based on 4-quarter moving averages.

- In the November reference month of December quarter 2024, there were 2,955,514 employed persons in Queensland, which accounted for 20.5% of Australia's total employment.
- Over the year to December quarter 2024, the largest percentage increase in employment in Queensland occurred in the occupation group *Sales workers* (up 9.4%), followed by *Machinery operators and drivers* (up 6.0%). In Australia, the largest percentage increase occurred in the occupation group *Community and personal service workers* (up 5.6%).
- Over the year to December quarter 2024, the occupation group *Sales workers* recorded the largest contribution to employment changes in Queensland (0.8 percentage point), followed by *Clerical and administrative workers* (0.7 percentage point). In comparison, the occupation group *Community and personal service workers* recorded the smallest contribution in Queensland (0.3 percentage point) (Figure 1).
- During December quarter 2024, the occupation group *Professionals* had the largest percentage of total employment in Queensland (23.6%), followed by *Technicians and trades workers* (14.1%). The largest percentage in total employment in Australia was also in *Professionals* (26.5%) (Figure 2).

Notes

The labour force statistics presented in this brief are based on a sample and are subject to sampling error. As such these estimates will exhibit, in some cases, large volatility in quarterly changes. Extreme caution should be used when making inferences from these estimates.

Occupation was coded to the ABS 2013 v1.2 Australian and New Zealand Standard Classification of Occupations (ANZSCO).
