Labourers	4.8	1.4
Total	3.0	2.0

(a) Year to June quarter 2025 on year to June quarter 2024.

Main findings

Note: All data in this brief are based on 4-quarter moving averages of direct survey estimates.

- In the May reference month of June quarter 2025, there were 2,981,223 employed persons in Queensland, which accounted for 20.5% of Australia's total employment.
- Over the year to June quarter 2025, the largest percentage increase in employment in Queensland occurred in the occupation group 'Technicians and trades workers' (5.6%), followed by 'Professionals' (5.1%). In Australia, the largest percentage increase occurred in 'Professionals' (3.7%).
- Over the year to June quarter 2025, the occupation group 'Professionals' recorded the largest contribution to employment changes in Queensland (1.2 percentage points), followed by 'Technicians and trades workers' (0.8 of a percentage point). In comparison, the occupation group 'Managers' recorded the largest detractor in Queensland (0.1 of a percentage point) (Figure 1).
- During June quarter 2025, the occupation group 'Professionals' had the largest percentage of total employment in Queensland (24.0%), followed by 'Technicians and trades workers' (14.6%). The largest percentage in total employment in Australia was also in 'Professionals' (26.7%) (Figure 2).

Notes

The labour force statistics presented in this brief are based on a sample and are subject to sampling error. As such these estimates will exhibit, in some cases, large volatility in quarterly changes. Extreme caution should be used when making inferences from these estimates.

Occupation was coded to the ABS 2013 v1.2 Australian and New Zealand Standard Classification of Occupations (ANZSCO).
