Key data

Employment (annual change) .................. ↓ 5.9%
Unemployment rate ......................... 6.5%
Unemployment rate (annual change) ........... ↑ 1.7 ppt
Participation rate .......................... 67.6%
ppt = percentage point

Main findings

Note: Due to the high standard errors associated with regional labour force survey data, the ABS and QGSO recommend using 12-month averages to reduce the volatility of the underlying original data. This volatility means it can be difficult to detect real world phenomena, such as those caused by the social distancing measures introduced to combat COVID-19, in the data. As a result, it is not recommended regional labour force data be used to assess the impact of COVID-19.

All data in this brief are based on 12-month moving averages.

- The number of employed persons in Brisbane - North SA4 in November 2020 was 117,600 persons, a decrease of 7,400 employed persons, or 5.9% over the year (Figure 1).
- The unemployment rate in Brisbane - North SA4 in November 2020 was 6.5 per cent, an increase of 1.7 percentage points over the year. The unemployment rate for this area was the ninth-lowest of all 19 SA4s within Queensland (Figure 2).
- The participation rate in Brisbane - North SA4 in November 2020 was 67.6 per cent, a decrease of 4.0 percentage points over the year (Table 1).

SA4 = Statistical Area Level 4 (ASGS 2016 edition)

Notes (refer to website for more detailed notes):
Data for Queensland as a whole are provided for reference purposes only.
The labour force statistics presented in this brief are on a sample basis and will include a sampling error.
Totals may differ due to rounding. Figures are rounded to nearest 100 persons. Calculations are based on pre-rounded figures.
