## Main findings

Note: Due to the high standard errors associated with regional labour force survey data, the ABS and QGSO recommend using 12-month averages to reduce the volatility of the underlying original data.

All data in this brief are based on 12-month moving averages.

The ABS has imputed sample responses in Moreton Bay - North and Townsville SA4 regions for March 2025 and Townsville SA4 for February 2025 due to recent natural disasters. The ABS recommends caution when using data from these impacted regions for analysis.
