Main findings

Note: Due to the high standard errors associated with regional labour force survey data, the ABS and QGSO recommend using 12-month averages to reduce the volatility of the underlying original data.

All data in this brief are based on 12-month moving averages.

The ABS has imputed sample responses in Townsville SA4 for February 2025, March 2025 and April 2025 and Moreton Bay - North SA4 for March 2025 due to recent natural disasters. The ABS recommends caution when using data from these impacted regions for analysis.
