Main findings

Note: All data in this brief are based on 12-month moving averages of regional labour force direct survey estimates.

The ABS and QGSO recommend using 12-month averages to address high standard errors and reduce data volatility.

The ABS has imputed sample responses in Townsville SA4 for February 2025, March 2025 and April 2025 and Moreton Bay - North SA4 for March 2025 due to recent natural disasters. The ABS recommends caution when using data from these impacted regions for analysis.
