- (a) Includes high rank metallurgical coal (hard-coking) and bituminous coal (thermal) and excludes semi-soft coking metallurgical coal and PCI coal.
- (b) From June 2013, the ABS changed the treatment of certain commodities to maintain confidentiality. This resulted in some commodities (such as sugar) not being included in state level exports. As a consequence total exports at a state level are understated.
- (c) Includes export commodities such as LNG, alumina and semi-soft coking metallurgical coal, PCI coal, cotton and lucerne.
