## Main findings

The commentary below is based on nominal values (in Australian dollars), therefore movements are affected by price and quantity changes. Data are based on exports of goods overseas by state of origin. Data excludes service and interstate exports. The latest six months data are preliminary and subject to revision.

- The value of Queensland exports increased \$63.0 billion to be \$133.7 billion over the year to October 2022. Australia's export value increased by \$134.3 billion over this period (Figure 1).
- The largest increase in the value of non-confidentialised Queensland commodity exports for the year ending October 2022 was recorded in *Mineral fuels and lubricants* (increasing \$53.9 billion) (Table 1).
- The largest decrease in the value of non-confidentialised Queensland commodity exports for the year ending October 2022 was recorded in *Vegetables and fruit* (decreasing \$73.6 million).
- The *Mineral fuels and lubricants* commodity group recorded the largest non-confidentialised export value from Queensland for the year to October 2022 with \$81.1 billion.
- Japan was Queensland's largest export destination over the year to October 2022 with \$26.5 billion (Table 2). This was an increase of \$16.0 billion from the year to October 2021. India was Queensland's second largest export destination with \$21.2 billion (an increase of \$10.7 billion over the period).

nec = not elsewhere classified

- (a) Based on the Standard International Trade Classification Revision 4 commodity classification (with some labels abbreviated). Prior to the July 2020 release, the commodities presented in Table 1 were based on custom groupings of SITC Revision 3.
- (b) As of October 2021, semi-soft coking metallurgical coal and PCI coal became unconfidentialised and is not included in 'Commodities nec'.
- (c) From June 2013, the ABS changed the treatment of certain commodities to maintain confidentiality. This resulted in some commodities (such as sugar) not being included in state level exports. As a consequence total exports at a state level are understated.
- (d) Includes confidentialised export commodities such as LNG, alumina and cotton. Semi-soft coking metallurgical coal and PCI coal is also included to September 2021.
