Australia ..... \$562.4B ↓ \$21.1B (−3.6%)

## Main findings

The commentary below is based on nominal values (in Australian dollars), therefore movements are affected by price and quantity changes. Data are based on exports of goods overseas by state of origin. Data excludes service and interstate exports. The latest six months data are preliminary and subject to revision.

- The value of Queensland exports decreased \$18.7 billion to be \$117.8 billion over the year to November 2023. Australia's export value decreased by \$21.1 billion over this period (Figure 1).
- The largest increase in the value of non-confidentialised Queensland commodity exports for the year ending November 2023 was recorded in *Crude materials* (increasing \$1.6 billion) (Table 1).
- The largest decrease in the value of non-confidentialised Queensland commodity exports for the year ending November 2023 was recorded in *Coal, coke and briquettes* (decreasing \$19.8 billion).
- The *Mineral fuels and lubricants* commodity group recorded the largest non-confidentialised export value from Queensland for the year to November 2023 with \$63.1 billion.
- China was Queensland's largest export destination over the year to November 2023 with \$23.4 billion (Table 2). This was an increase of \$4.7 billion from the year to November 2022. Japan was Queensland's second largest export destination with \$19.9 billion (a decrease of \$7.3 billion over the period).

nec = not elsewhere classified

- (a) Based on the Standard International Trade Classification Revision 4 commodity classification (with some labels abbreviated).  
(b) As of August 2023, cotton become unconfidentialised and is not included in 'Commodities nec'.  
(c) From June 2013, the ABS changed the treatment of certain commodities to maintain confidentiality. This resulted in some commodities (such as sugar) not being included in state level exports. As a consequence total exports at a state level are understated.  
(d) Includes confidentialised export commodities such as LNG and alumina. Semi-soft coking metallurgical coal and PCI coal are included to September 2021 and cotton is included to July 2023.
