nec = not elsewhere classified

- (a) Based on the Standard International Trade Classification Revision 4 commodity classification (with some labels abbreviated).
- (b) As of August 2023, cotton became unconfidentialised and is not included in 'Commodities nec'.
- (c) From June 2013, the ABS changed the treatment of certain commodities to maintain confidentiality. This resulted in some commodities (such as sugar) not being included in state level exports. Consequently, total exports at a state level are understated.
- (d) Includes confidentialised export commodities such as LNG and alumina. Cotton is included to July 2023.
